Using the ThermoPro Sensor APP

The main menu is in the upper left corner. You can find FAQs, Contact Us and how to switch temp units here.

Press the paired device in the list of My Sensor(s) to check more detailed information.

When viewing the sensor information, temperature and humidity data recorded in the past 24 hrs/7 week/1 year will be displayed.

To adjust sensor settings, press the edit button in the upper right corner. You can rename your sensor and temperature/humidity alerts can be set here.

1. Press Sensor Name to rename your sensor's name.

2. Press Alarm Settings to enable/disable temperature or humidity alarms. Further, set your desired MAX/MIN temperature or humidity range.

Disposal

Meaning of the 'Display' Symbol

- Neatly arrange the batteries to dispose of electrical equipment in the domestic waste.
- Please return any electrical equipment that you will no longer use to the collection points provided for their disposal.
- This helps avoid the potential effects of incorrect disposal on the environment and human health.
- This will contribute to the recycling and other forms of reutilization of electrical and electronic equipment.

Declaration of Conformity

Hereby, the manufacturer declares that this product complies with the basic requirements and applicable requirements of the Radio Equipment Directive 2014/53/EU, the EMC Directive 2014/30/EU. The complete declaration of conformity can be found at https://monocoral.com/eu-declaration-of-conformity/
